### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Peter Holsen on March 27, 2006.

The application has been amended as follows:

Claim 40, line 9, and claim 42, line 8, "substantially over the full length" has been changed to --over part--.

The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of claims 40 and 42 is the inclusion of the hollow profile and additional profile formed as roll formed profiles made of metal flat strip material, the additional profile being permanently and rigidly connected to the hollow profile and extending along a length thereof, and the hollow profile having a considerable excess at one end for anchoring the profiled frame below the parapet line in a door box of the vehicle door. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
